

Do you want fast and accurate valuations delivered with exceptional service?

At VAS, we're actively working with over 5000 brokers, making their valuation journey smooth and efficient.

Speed

With market leading SLAs, we ensure faster deal closures—allowing you to focus on what you do best. We consistently hit SLAs and continuously raise the bar for service delivery.

Clarity

We've streamlined the valuations process, removing the usual bottlenecks with leading technology and a bespoke portal that keeps everything moving and transparent, backed by an experienced team that's with you every step of the way.

Support

Specialist teams handle valuation quotations, instructions, payments, inspections, report updates, PVQs and much more. From start to finish, our team manages the process and keep you fully informed along the way.

Reliability

With over 100 active lender clients, our highly experienced team has serviced tens of thousands of valuations per year, worth billions of pounds, across every property sector—supporting all your valuation needs.

Control

Our dashboard is built for efficiency, delivering real-time updates and full visibility, putting you in control and updated at every stage.

Service

We combine real human support with powerful technology, ensuring a smooth experience from start to finish.

Panel

With over 200 reputable firms covering over 50 different property types, we have every scenario covered. Plus, we support bridge-to-term readdresses and simplify the entire process for you.
